

OSTERRATH

Verbindungstechnische Präzision

company

- founded in 1850 as a medium-sized, family owned company
- CEO: Dipl. Ing. Jan Osterrath
- 145 employees / 4330 m² production area

design

- technical consulting by sales representatives
- high performance FEM / CAD / CAM software
- application-oriented development of components

tool making

- we build our own tools
- high vertical range of manufacture
- complex drawing dies and multistage operation dies

stamping

- up-to-date machinery
- compressive force
- computer-operated manufacturing process

stamping / bending

- separation of stamping tool and bending tool
- production of sophisticated components possible
- thread forming

tube forming

- complex formed parts
- multistage facilities
- production from logitude tubes and coiled tubes

plating

- electroplating of 75% our components
- nickel, copper, tin
- special surface treatments by external galvanic partners

tubes & coils

- own band-cutting device
- 1000 m² warehouse
- stock of current dimensions

quality

- certified per DIN EN ISO 9001:2000
- RoHS compliancy
- cpk – documentation possible

distribution

- we supply worldwide
- within Germany in 24 hours
- we cooperate with all known parcel services

packing

- several types of packing
- customized labelling
- IPSM / VCI packing
